

Mission

To provide access to library and information resources and services aimed at improving the quality of education, training a new generation of professionals and assisting scientific research, as well as sustainable development of the library with its traditional purpose and modernisation of library space with modern services and opportunities for users.

Vision

The IBSM Library will become a full-fledged high-tech learning centre for study and work, leisure and self-development for students, teachers, professionals and specialists, providing up-to-date and reliable information.

Goals:

1. Formation of library and information resources and services to facilitate the development of teaching, learning and research competences of the users of IBSM.
2. Providing free and equal access to printed publications and electronic resources to support and develop the educational and research activities of IFLA.
3. Creation of a modern and ergonomic library space that combines the functions of a library and information and educational centre, traditional library and innovative forms of service with the provision of electronic information resources and digital services.
